

Dear Parents/ Guardians

As you know school should be starting on Monday, it would be the first day of the Summer Term, unfortunately that is still not possible. The teachers have prepared some work for each child, which they can do alongside all the lovely things you are doing at home - reading, baking, playing board games, enjoying the sunshine in your gardens or yards and generally enjoying being a family.

Your class teacher will be sending work each week. I do not want this to cause you any stress or feel a burden. No child will get into trouble because they have not completed a task. I recognise you will have many things or worries at home to balance. The work set is to aid learning, please do whatever you are able to do. If any of the work causes any problems or your child feels they cannot manage, please remember you can contact the school / email the teacher for support and guidance.

I look forward to the time when all our efforts have paid off and school can finally open its doors again for all pupils. Until that time the most important message is stay **safe and happy**.

Thinking of you all

Mrs. J.M. Clark

Head Teacher
